answers to your questions about sex and relationships

wildfact

The "Rx" symbol for a prescription goes back to medieval times, and is based on the Latin word *recipere*, meaning "to take."

Q How much do birth control pills cost at Campus Health?

A. Our pharmacy just might be the best kept secret on campus. Not only can you get your prescriptions conveniently filled between classes, but you can also pick up over the counter (OTC) and personal care products – including toothpaste, allergy medicine, ibuprofen, sunscreen, Emergen-C®, condoms, and more – at great prices.

And while the CHS Pharmacy does not take pharmacy insurance cards, we strive to keep costs low, often below prescription co-pays. Even better, like everything at Campus Health, you can bill it to your Bursar's account and have it show up as a nonspecific "Student Health Charge."

Back to birth control pills. The Campus Health Service Pharmacy carries a wide range of hormonal birth control, including name brands and generics. To the right is a sampling of what we typically have in stock (**bold items**) along with current prices for a one month supply, which are subject to change.

For more info on the CHS Pharmacy and a complete list of our products, check out www.health.arizona.edu and click on "Pharmacy."

BRAND NAME	GENERIC NAME	COST
Allesse	Sronyx	\$20.00
Beyaz	-	\$79.70
