Dear Parents & Students,

We are pleased to offer CampusCare to students of The University of Arizona. This option is an ideal bridge for students covered by a commercial or Marketplace plan, where one may have a high deductible, limited benefits or no coverage for charges incurred at the UA Campus Health Service. CampusCare is not health insurance, therefore we strongly urge every student to maintain adequate health insurance to cover unexpected medical expenses.

CampusCare covers most expenses for services provided at UA Campus Health. There are some co-payments required but these charges can be posted to your Student Bursar’s account if you do not wish to pay at the time services are provided.

If you choose to enroll after reviewing the benefits that CampusCare has to offer, you may do so by ordering through your UAccess Student Center account during the published open enrollment.

We wish you good health and much success in the coming semester.

Kris T. Kreutz, MBA
Interim Executive Director, UA Campus Health Service

I already have insurance, how does CampusCare fit in?
CampusCare is an ideal option if you have a commercial or Marketplace plan with:
- A high deductible
- No out-of-network benefits
- Emergency-only coverage
- Limited benefits for specialty visits such as counseling, physical therapy, etc.

In the event that a service is not covered by CampusCare and you have a commercial plan that we participate with, we will automatically bill your insurance.

Is CHS a participating provider with your plan? Visit health.arizona.edu, select “Fees & Insurance” and click on “Commercial Health Insurance Plans.”
